Open Space Farm & Ag Program

Congratulations on your decision to purchase land that is currently classified as "Open Space Farm & Agricultural Land". The property was placed in the Open Space Farm & Ag (Current Use) classification by the previous owners to preserve the land for commercial agricultural purposes. The Current Use assessed values are generally significantly lower than those lands not classified which is reflected on the property tax payments. When purchasing lands that are currently classified as Open Space Farm & Ag Land (Current Use) the new owner will have the option to either continue the classification or to remove the classification and the Seller will be responsible compensating taxes.

This packet has been compiled to provide you with the requirements are to maintain the property and your options to continue or remove the classification. Enclosed in this packet you will find the following:

- Current Use Application Packet / Notice of Continuance *
- Request for Information Verifying Commercial Agricultural Use Financial Documentation Requirements
- Notice of Request to Remove Current Use Assessment Classification

Continuation of the Open Space Farm & Ag Land Classification:

Our office requires financial documentation to verify that the commercial Farm & Ag operation meets the minimum requirements of producing a gross income for three out of the last five years be submitted for review at the time of purchase. Please see Request for Information Verifying Commercial Ag Use Financial Documentation Requirements Sheet.

If choosing to continue the classification the purchaser / Title Company must submit the following to our office for approval and signature prior to recording the sale:

- The Real Estate Excise Tax Affidavit (REETA) with the purchaser's signature section 6 that they wish to continue the Open Space Farm & Ag Land Classification.
- The Current Use Application Packet with all supporting documentation & approval email (if applicable).
- Acceptable financial documentation to verify that the commercial Farm & Ag operation meets the minimum requirements of producing a gross income for three out of the last five years. The purchaser may need to request this information from the seller.

Acceptable financial information includes:

- Federal income tax returns (Schedule F) – *Preferred*,
- Receipts from sales of agriculture products produced on the classified lands,
- Rental or lease agreements/receipts
- Government payments and subsidies, or
- Other income/expense information related to the land

***We require a Current Use application & Farm Plan to be submitted to our office Seven (7) Days prior to recording for pre-approval until further notice**

Removal of Classification:

If the purchaser chooses not to continue the classification and would like to remove the property our office requires that a Notice of Removal be filled out and signed by our office prior to recording the sale with the County Auditor. Recording fees will apply and are required for the Notice of Removal and compensating taxes and any penalties will need to be paid at the time of recording. The amount of compensating taxes due is based on the sale closing date and the difference between the fair market value of the land and the current use value. This amount is then multiplied by the levy rates for each of the last seven years that the land was designated plus the current year. If you chose to remove the property our office asks that you notify us as soon as possible so that we can calculate the amount due at closing.

If you have any questions or need further information about the Open Space Farm & Ag Land classification, please contact me at 509-754-2011 ext. 2641 or aaperez@grantcountywa.gov

In accordance with the provisions of RCW 84.34.035, "... [T]he assessor shall submit notification of such approval [Form REV 64 0088] to the county auditor for recording in the place and manner provided for the public recording of state tax liens on real property."

Farm and Agricultural Land Means Either:

1. A parcel of land or contiguous parcels of land of twenty or more acres devoted primarily to the production of livestock or agricultural commodities for commercial purposes, or enrolled in the Federal Conservation Reserve program or its successor administered by the United States Department of Agriculture.
2. Any parcel of land or contiguous parcels that are five acres or more but less than twenty acres devoted primarily to agricultural uses, which has:
 - Produced a gross income from agricultural uses equivalent to two hundred dollars or more per acre each year for three of the five calendar years preceding the date of application for classification under this chapter;
 - Standing crops with an expectation of harvest within seven years and a demonstrable investment in the production of those crops equivalent to one hundred dollars or more per acre in the current or previous year; or
 - Standing crops of short rotation hardwoods with an expectation of harvest within fifteen years and a demonstrable investment in the production of those crops equivalent to one hundred dollars or more per acre in the current or previous year.
3. Any parcel of land or contiguous parcels that are less than five acres devoted primarily to agricultural uses which have produced a gross income of fifteen hundred dollars or more each year for three of the five calendar years preceding the date of application for classification under this chapter.

Agricultural lands also include:

- Noncontiguous (in this context, means non adjoining/touching) parcels from one to five acres, but otherwise constituting an integral part of farming operations conducted on the land;
- Land, not to exceed twenty percent of classified land that has incidental uses compatible with agricultural purposes, and also the land on which appurtenances necessary to the production, preparation or sale of the agricultural products exist in conjunction with the lands producing such products;
- Land used primarily for equestrian-related activities for which a charge is made, including, but not limited to, stabling, training, riding, clinics, schooling, shows, or grazing for feed;
- Any land on which the principal place of residence of the farm operator or owner of land or housing for employees is sited if the farm and agricultural land is classified pursuant to RCW 84.34.020(2) (a), if the residence or housing is on or contiguous to the classified parcel, and the use of the housing or the residence is integral to the use of the classified land for agricultural purposes;
- Any land primarily used for commercial horticultural purposes, whether under a structure or not. Land cannot be primarily used for the storage, care, or selling of plants purchased from other growers for retail sale or covered by more than 20 percent pavement if the primary use is growing plants in containers. If the primary use of the land is growing plants in containers and the land used for this purpose is less than five acres, the land will not qualify for classification if more than 25 percent is open to the general public for on-site retail sales.

Statement of Additional Tax, Interest, and Penalty Due Upon Removal of Classification

1. Upon removal of classification, additional tax, interest, and penalty shall be imposed which shall be due and payable to the county treasurer thirty days after removal or upon sale or transfer, unless the Assessor has approved the Notice of Continuance signed by the new owner. The additional tax, interest, and penalty shall be the sum of the following:
 - (a) The difference between the property tax paid as "Farm and Agricultural Land" and the amount of property tax otherwise due and payable for the last seven years had the land not been so classified; plus
 - (b) Interest upon the amounts of the difference (a), paid at the same statutory rate charged on delinquent property taxes; plus
 - (c) A penalty of twenty percent shall be applied to the additional tax and interest if the classified land is sold, transferred, or applied to some other use, except through compliance with the property owner's request for withdrawal as described in RCW 84.34.070(1).
2. The additional tax, interest, and penalty specified in (1) shall not be imposed if removal resulted solely from:
 - (a) Transfer to a governmental entity in exchange for other land located within the State of Washington;
 - (b) A taking through the exercise of the power of eminent domain, or sale or transfer to an entity having the power of eminent domain in anticipation of the exercise of such power;
 - (c) A natural disaster such as a flood, windstorm, earthquake, wildfire, or other such calamity rather than by virtue of the act of the landowner changing the use of such property;
 - (d) Official action by an agency of the State of Washington or by the county or city where the land is located disallowing the present use of such land;
 - (e) Transfer of land to a church when such land would qualify for property tax exemption pursuant to RCW 84.36.020;
 - (f) Acquisition of property interests by state agencies or agencies or organizations qualified under RCW 84.34.210 and 64.04.130 for the purposes enumerated in those sections (see RCW 84.34.108(6)(f));
 - (g) Removal of land classified as farm and agricultural land under RCW 84.34.020(2)(f) (homesite);
 - (h) Removal of land from classification after enactment of a statutory exemption that qualifies the land for exemption and receipt of notice from the owner to remove the land from classification;
 - (i) The creation, sale, or transfer of forestry riparian easements under RCW 76.13.120;
 - (j) The creation, sale, or transfer of a conservation easement of private forest lands within unconfined channel migration zones or containing critical habitat for threatened or endangered species under RCW 76.09.040;
 - (k) The sale or transfer of land within two years after the death of the owner of at least a fifty percent interest in the land if the land has been assessed and valued as classified forest land, designated as forest land under chapter 84.33 RCW, or classified under this chapter continuously since 1993. The date of death shown on a death certificate is the date used (see WAC 458-30-300(5)(k)); or
 - (l) The discovery that the land was classified in error through no fault of the owner.

Request for Information Verifying Commercial Agricultural Use Financial Documentation Requirements

The Department of Revenue requires our office to use income data from agricultural operation to verify that the classified property is used for commercial purposes per RCW 84.34. Based on the amount of cumulative and contiguous acres that are classified in the program, the minimum income requirements are:

- **Less than 5 acres**, an annual gross income for 3 of the last 5 years (2014 to 2018) from agricultural products of at least **\$1,500** or **\$1,000** or more if placed in classification prior to 1993
- **5 to 20 acres**, an annual gross income for 3 of the 5 years (2014 to 2018) from agricultural products of at least **\$200 per acre** or **\$100 per acre** if placed in classification prior to 1993.
- **20 or more acres**, do not require a specific amount, but there must be sufficient income to ascertain the property is a commercial-scale farm.

You must meet the minimum income requirement for the amount of acreage enrolled for three out of the past five years. **Please return a copy of your IRS Farm Income & Expense tax return (Schedule F) or other acceptable financial information.** Merely indicating the gross amount without proof is not acceptable and your form will not be considered complete without the required income documentation. Any income information provided to our office is kept in confidence and is destroyed after verifying that it meets the DOR requirement. No financial information is kept on file. If you prefer, you can submit the information in person and we can review it and hand it back to you.

Acceptable financial information includes:

- Profit or Loss from Farming (schedule F) Federal income tax return
- Receipts from sales of agricultural products produced on the classified lands,
- Rental or Lease agreements/ receipts
- Government payments and subsidies, or
- Other income/expense information related to the land
